

MOBILE DEVICES FOR METROLOGICAL CONTROL

- Master meters devices
- Modular metering units for tank volume calibration
- Metering units for tank volume calibration on trailer

SLZ-1500

Metering unit for large tank volume calibration

- calibration medium: water
- long unmaned operation possible
- automatic flow stop in case of failure or sudden power failure
- $Q = 1500 \text{ dm}^3/\text{min}$
- electronic register
- electromagnetic meter
- gas separator

MM-2000 - Master meter

- for calibration of jet fuel metering unit: tanker truck and installations for the filling of road tankers
- $Q = 2000 \text{ dm}^3/\text{min}$
- electronic register
- high accuracy through multi point linearisation
